PROFESSIONAL PROFILE

Full-Stack Web Developer with experience in frontend development using React, Angular and TailwindCSS, as well as backend development with Java, Spring Boot, ASP.NET, PHP and SQL.

I have taken part in the development of management applications, CRUD functionalities, interactive dashboards, geolocated maps and the maintenance of ERP systems, applying good development practices and paying close attention to code quality.

I stand out for my ability to learn quickly, communicate clearly and focus on delivering functional value, making use of modern development and optimisation tools to maximise productivity and efficiency in each project.

WORK EXPERIENCE

Desarrollador Front-End Angular

Sixtema - Internship - September 2025 - December 2025

- Provided support and maintenance for ERP systems, resolving incidents and generating reports.
- Developed web functionalities, including an interactive delivery map and a data dashboard using Leaflet.js and ApexCharts.js.
- Produced technical documentation for the implemented solutions using ASP.NET and SQL Server.

Desarrollador Web Full-Stack

Microcompostela, S.L. - Internship - April 2024 - June 2024

- Developed multiple pages for data management through CRUD operations.
- Implemented forms and views for the administration of different entities.
- Researched and developed address search functionality using Nominatim and map-based geolocation.

PROJECTS

CestaGalega - Full-Stack Marketplace for Local Galician Commerce

Next.js - React - TypeScript - Prisma - Docker - Supabase - TailwindCSS - JWT - Recharts - Trello (Kanban) - Vercel

Web application designed to connect small Galician businesses with users interested in purchasing local products. It includes authentication, user and company roles, product management, orders, shopping basket, reviews, a company dashboard and statistics.

Repository: <https://github.com/iglnierod/proyecto-final-cesta-galega>

Demo video: https://youtu.be/6_hPlc-Xejc

Porra Champions - Full-Stack Sports Prediction Application

Spring Boot - Java - PostgreSQL - React - JavaScript - TailwindCSS - Vercel - Render

Web application for managing UEFA Champions League match predictions. Users could view available fixtures, submit their predictions and receive points based on the final result of each match.

The frontend was developed with React, consuming a REST API implemented with Java and Spring Boot. The backend handled business logic, prediction management, matches, users and scoring.

- Frontend (React): <https://github.com/iglnierod/ucl-porra>
- Backend (Java + SpringBoot): <https://github.com/iglnierod/porra-champions-backend>
- Frontend Admin (PHP): <https://github.com/iglnierod/porra-dashboard-php>

GameArchive - Desktop Application for Video Game Management

Java - Java Swing - Maven - PostgreSQL - Supabase - IGDB API - Imgur API

Cross-platform desktop application developed in Java to discover, organise and track video games. It allows users to register accounts, configure profiles, search for games through the IGDB API, create customised lists, rate games, add progress statuses, receive recommendations based on preferences and export lists in different formats.

EDUCATION

Desarrollo de Aplicaciones Web

IES San Clemente - September 2024 - December 2025

- Frontend application development using React and TailwindCSS.
- Backend programming with PHP and MySQL.
- Linux server management and administration.

Desarrollo de Aplicaciones Multiplataforma

IES Plurilingüe Antón Losada Diéguez - September 2022 - June 2024

- Desktop application development with Java, Java Swing and JavaFX.
- Mobile application development with Kotlin and Firebase.
- Project management using Git and Scrum methodology.

SKILLS

- **Programming languages:** Java, TypeScript, JavaScript, PHP, Visual Basic .NET, Kotlin, SQL.
- **Frameworks y libraries:** Angular, React, Java Spring, ASP.NET, TailwindCSS, Maven, Gradle, Junit.
- **Soft skills:** Problem-solving, independent learning, teamwork and clear communication.
- **Technical Competences:** Backend, frontend and full-stack development; REST API integration and development; technical documentation; database management; web application deployment.

LANGUAGES

- **English:** Advanced (Cambridge C1 - Grade A - 183)
- **Spanish:** Native
- **Galician:** Native
